#### **Concept Note**

India's journey towards its centenary of independence in 2047 is guided by the ambitious vision of a "Viksit Bharat," or Developed India. This national aspiration goes beyond achieving a specific economic size; it is a holistic roadmap for transforming India into a prosperous, equitable, and globally significant nation. The key to realizing this vision lies in two fundamental pillars: inclusive development, which ensures that the benefits of growth reach every citizen and region, and sustainable development, which safeguards the environment for future generations.

Economic Association of Bihar and Indian Economic Association in collaboration with M.S.K.B. College, B.R.A. Bihar University, Muzaffarpur is organizing this national conference to bring together leading policymakers, academics, industry experts, and researchers. The conference aims to foster a critical and constructive dialogue on the strategies and policy frameworks required to achieve the "Viksit Bharat @2047" vision. By providing a platform for the exchange of innovative ideas and research-based insights, this conference seeks to contribute a detailed and actionable roadmap that can guide India's trajectory toward becoming a developed nation.
