Central University of
Jharkhand

Prof. Ramesh Sharan
Former Vice Chancellor,
Vinoba Bhave University,
Ranchi, Jharkhand.

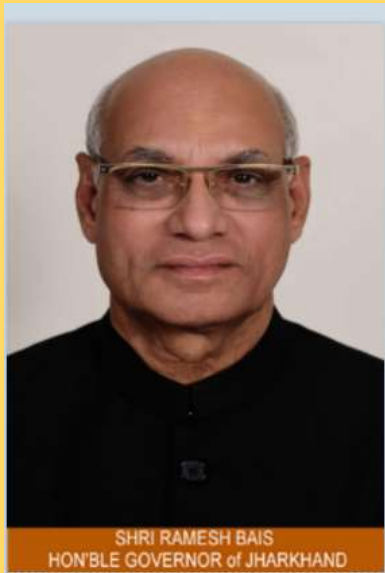

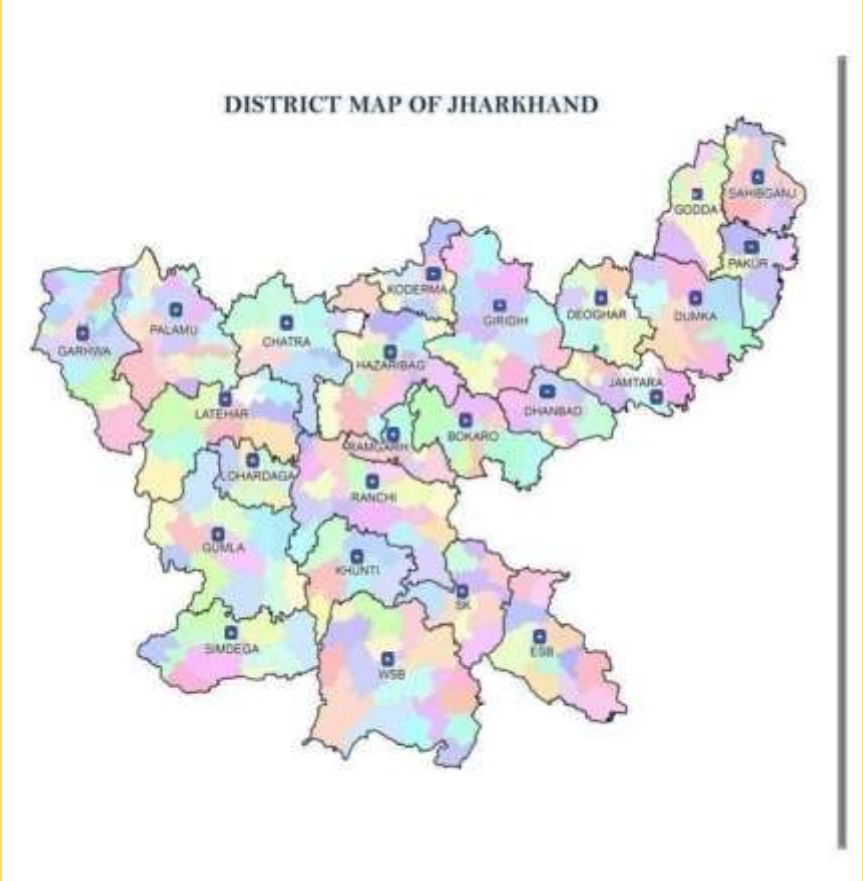

Prof. Pulin Nayak
Former President,
Indian Economic
Association

JHARKHAND

Jharkhand ("The land of forest") is a state in eastern India, created on 15 November 2000, from what was previously the southern half of Bihar. The state shares its border with the states of Bihar to the north, Uttar Pradesh to the northwest, Chhattisgarh to the west, Odisha to the south and West Bengal to the east. It has an area of 79,710 km² (30,778 sq mi). It is the 15th largest state by area, and the 14th largest by population. Hindi is the official language of the state. The city of Ranchi is its capital and Dumka its sub capital. The state is known for its waterfalls, hills and holy places: Baidyanath Dham, Parasnath and Rajrappa are major religious sites.

A.S. COLLEGE

About the College

A.S College, Deoghar, Accredited B+ by NAAC, a constituent unit under S.K.M.U Dumka started its journey towards the path of excellence in the year 1969 under the able guidance of Dr H. Narayan, the founder Principal of the college. It was started as an evening college and gradually with the increase in the number of students, it became a day college. At present A.S College, Deoghar has two separate blocks where teaching of Arts, Commerce and Science is imparted with able and proficient teachers. Apart from the teaching of general courses, it runs the department of Management and Computer Science. In the year 2008 the department of BBA (H), BCA (H) were established. The teaching of Add on course in computer application, ASP&SM and Library Science are also being done here. In the year 2015, the college got permission from MHRD and UGC to start Community College scheme. Under this scheme, Diploma in Hospitality Management was started with a maximum intake of 50 students in each semester. The students of first batch got their diploma in December 2015 and are placed in different Hotels of Jharkhand and Bihar. This is the only college under S.K.M University Dumka where the community college has been running successfully. The college has an identity of an educational hub as far as vocational course are concerned. The department of Education is also running here quite successfully, where students get their B. Ed degree. P.G, teaching of Commerce is also imparted here with utmost sincerity and care. In the field of Academics, the students have proved their excellence.

INDIAN ECONOMIC ASSOCIATION

SINCE - 1917

Indian Economic Association (IEA) is the oldest, the largest and the only national association of professional economists in India. Established in 1917 by Prof. C.J. Hamilton in Calcutta, it has now 10000+ members of various categories from all walks of life and from all parts of India and abroad. This Association is proud of having as its President, the Nobel laureate Prof. Amartya Sen who was the President of the International Economic Association. Among its former presidents, it has renowned scholars like, R.K.Mukherjee, C.N. Vakil, D.R. Gadgil, J.P.Niyogi, V.K.R.V. Rao, B.R. Shenoy, A.K.Dasgupta, B.K.Madan, S.K.Basu, D.T.Lakdawala, K.N.Raj, V.M.Dandekar, M.S.Adhisheshiah, Bhabatosh Datta, P.R. Brahmananda, Gautam Mathur, D.M. Nanjundappa, Manmohan Singh, S. Chakroborty, Alak Ghosh, C. Rangarajan, A. M. Khusro, RajaJ. Chelliah, G.S.Bhalla, C.T. Kurien, C.H. Hanumantha Rao, Y.V.Reddy and many others. During its 102 years of the illustrious existence, the Indian Economic Association has been organizing annual Conference every year with special/ memorial lectures, Symposia and current topic sessions, keynotes addresses and technical sessions. The Hon'ble vice President Shree M. Venkaiha Naidu has inaugurated 102nd Annual Conference at Pandit Ravishankar Shukla University Raipur(CG). In the Past, his excellency Dr. Pranav Mukherjee and Present President Shree Ram Nath kovind inaugurated Annual Conference. During its 102 years of the illustrious existence, the Indian Economic Association has distinction of organizing annual conference throughout the breadth and width of the country on various contemporary issues as the themes of the conference. Besides these IEA had the distinction of arranging special and memorial lectures delivered by world renowned Economists of India.

Chandramohan**

General Secretary

Overarching Theme:

National Education Policy 2020: With special Reference to Jharkhand

Concept Note

Education is the foundation for achieving human development, just society and national development. Universalization of quality education is essential for developing and maximizing India's rich talents and resources for achieving rapid economic growth, ensuring social justice and equality, scientific advancement and national integration. The National Education Policy 2020 aims at the revision and revamping the present system of regulation and governance and to create a new system that is aligned with the SDG4, while building upon India's traditions and value systems.

The teacher is at the centre of reforms in the education system. This policy intended to recruit the very best and brightest to enter the teaching profession by ensuring dignity, and autonomy while guaranteeing quality control and accountability. This policy aims to provide a quality education system to all sections of the society focusing on marginalized, disadvantaged, and underrepresented groups for achieving economic and social mobility, inclusion, and equality.

The salient features of the NEP 2020 are Self – reliant India, SDG4, reinforcing and boosting economy through entrepreneurship, internationalization of higher education, digital educational infrastructure empowering society and knowledge economy and a new layered accreditation system. NEP-2020 is planned to encourage programs and initiatives such as make in India, skill India, start-up India and latest being Atma-Nirbhar India. The Covid19 crisis has shown the need for a self-reliant society and it aims to provide opportunities to the unemployed through a self-sustained skill-based model.

Through the principle of SDG-4, the NEP aims holistic development of an individual through positive inclusive education from school education to higher education extended to climate, culture, values and environment awareness. The purpose is to formulate the students think and adopt an eco-friendly lifestyle since the primary level of education. The NEP has also laid emphasis on increased flexibility and choice of subjects of study particularly at secondary school level. NEP 2020 is an ambitious and futuristic policy recognising the importance of foundational learning on a more holistic development of children, the shift from the 10+2 system to the 5+3+3+4 — with foundation, preparatory, middle, and secondary stages. Teaching of an Indian language will protect and promote our linguistic and cultural diversity and a mother-tongue based multilingual education system will pave the way for identity. The multiple exit and re-entry system, credit transferability across the universities, and multi-disciplinarity in the higher education system will provide more flexibility to students.

Although the NEP 2020 aims to bring a holistic change in the education system of India, there are substantial challenges, both quantitative and qualitative, in implementing the reforms. The policy envisages the redesign of the school curriculum. Gaps in physical teaching and laboratory infrastructure are a great challenge and the cost associated with building digital infrastructure might

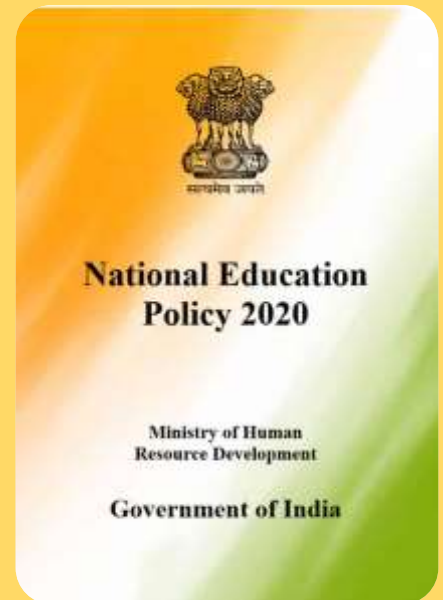

not be affordable for all schools across the country. NEP 2020 aims to make education system holistic and flexible however, accomplishing these goals needs to overcome all the execution challenges subsequently in a sustained manner.

NEP 2020 recommends many transformational ideas for education. It seeks to ensure literacy and numeracy in a mission mode. There will be no tight distinctions between arts and sciences, between curricular and extra-curricular activities, between vocational and academic streams. It promotes active pedagogy, development of core capacities and life skills. NEP focuses on empowerment of teachers and improving their recruitment and service conditions. Policy envisages separation of regulatory, administrative and policy making functions to eliminate conflicts of interest and setting up of a State School Standards Authority. There is also a greater emphasis on technology to improve multiple aspects of education including learning, assessment, planning and administration.

SUB-THEMES

Highlights of NEP 2020 and its Deviations from the Present

- Recruitment, Quality Control and Accountability
- NEP and Self-reliant India
- SDG-4 and NEP-2020
- Boosting and Reinforcing Indian Economy
